

WHAT IS CLAIMED IS:

1. A detergent container with a massage brush comprising a body having an opening at the top and a cover which covers the upper part of the body including said opening, wherein said cover has a flat side and has a plurality of projections on said flat side.

5 2. The detergent container with a massage brush according to claim 1, wherein said opening is at about the center of the upper side of said body and has an inner cover with which it is closed.

3. The detergent container with a massage brush according to claim 1, which further comprises a side cover with which said flat side having said projections is covered.

10 4. The detergent container with a massage brush according to claim 1, wherein said body and said cover are designed to form a unitary body when fitted together.
